Council Meetings Update - 2

As advised in the previous update, the Parish Council will hold its meetings remotely until restrictions on meeting in public are sufficiently relaxed.

The Parish Council will hold a remote meeting during July with the main business to authorise the adoption of the annual accounts and supporting documents prior to their submission to the external auditor to meet a deadline at the end of July.

The date for this meeting has still to be finalised. An agenda will be published on the noticeboards and on the website giving due notice. This agenda will also contain details of how members of the public can access the meeting remotely.

As well as the main business above, the agenda will also include additional items of business that require the council to take decisions at this time.
